Professional project management

for optimum efficiency

Enterprise IT Value-Added Services - Your Guide to Digital Excellence

Your business success is at the heart of our Managed Services offerings. We provide comprehensive solutions in the areas of IT infrastructure & security, enterprise project & program management, and ensure seamless IT-business enablement. Your key to a successful digital transformation.

Overcome the Challenges

Often, programs and projects fail due to simple misunderstandings, lack of organization, and poor communication. ADVASO provides methodology, blueprints, scalable certified resources (PMI, IPMA, Prince2, Agile, Hybrid, and others), and decades of experience to successfully implement programs and projects.

Focus projects for many of our clients include:

- Program and multi-project management
- Optimization of existing programs and projects
- Rescue of struggling projects
- M&A and divestiture (IT integration of acquired companies and IT carve-outs in the context of corporate sales)
- ITIL-compliant implementation of services
- Project management office (PMO) services

Through our projects, we've learned that creating the right foundation is critical for project success. Despite good intentions and initial enthusiasm, many projects fail due to simple oversights, communication issues, and other obstacles in teamwork, project organization, and project management.

Discover PMaaS and PMOaaS – the innovation leaders in project management

Increase your efficiency, save costs, and manage your time more effectively – with the combined expertise of our professionals.

At ADVASO, we understand that at the heart of every business challenge lies the necessity to master a finely tuned balance of strategy execution, limitations, and risk reduction. That's why we offer complete solutions for program and multi-project management to ensure your projects succeed.

Projekt Management as a Service PaaS (PMaaS)

PMaaS is a new form of project management consulting, distinguished by the fact that the project management service provider ADVASO assumes full responsibility for the success of a project (with a fixed-price guarantee, based on defined price cards and project categories).

Organizations and companies can use PMaaS in a demand-oriented manner and based on actual current project requirements, without burdening the company's own resources.

Projekt Management Office as a Service (PMOaaS)

PMOaaS includes the services of a Project Management Office:

- Strategic project management
- Project coaching and training
- Ensuring uniform standards and quality
- Coordination of projects and resources
- Dashboards and KPI-based evaluations
- Automation of processes
- Assessments

ADVASO

ADDED VALUE SOLUTIONS

Projekt Support Office as a Service (PSOaaS)

PSOaaS gives you the opportunity to outsource the administrative overhead of project managers to a back office. Based on a fixed-price guarantee, we handle classic administrative tasks in your projects for you. These include:

- Reporting
- Schedule coordination
- Project plan updates
- Cost, risk, and schedule monitoring
- Communication management

Center of Excellence

The Center of Excellence is the logical extension of our services. ADVASO ensures that, based on our knowledge and experience, you enter a continuous improvement process and successfully apply the acquired insights and skills in programs and portfolios.
